

CARL KAWODZA

Saint Peters, MO 63376 · (636) 219-5312 · carlkawodza@gmail.com · Personal website: carlkawod.github.io

PROFESSIONAL SUMMARY

I am a motivated Computer Science graduate with hands on experience with software development, network management, and cybersecurity. I am especially passionate about making people's lives easier through problem solving, and critical thinking. Its important to me to show compassion and understanding when trying to help people. I have intentionally sought out skills beyond my degree that align with my career goals so that I can instantly make an impact to any organization I join and I am excited to apply what I have learned.

CERTIFICATIONS

CompTIA Network+ (N10-009) - 2026

CompTIA Security+ (SY0-701) - 2026

TECHNICAL SKILLS

Networking: TCP/IP, Subnetting, Routing & Switching, VLANs, DNS, DHCP, Wireless Networking, Network Security, SOHO Router Configuration, WAN Concepts, Network Troubleshooting

Tools: Wireshark, Nmap/Zenmap, Packet Tracer, VirtualBox, Meraki, Remote Desktop Tools

Also familiar with: Python, SQL, Git, Windows/macOS administration

EDUCATION

B.S. Computer Science, Lindenwood University, Saint Charles, MO

Aug 2022 - May 2026

Dean's List · Sibley Scholarship Recipient

Sibley Scholarship: Lindenwood's most prestigious undergraduate award, recognizing exemplary academic achievement, leadership, community service, and co-curricular involvement.

WORK EXPERIENCE

Resident Assistant

Aug 2024 - Aug 2026

Lindenwood University | Saint Charles, MO

- Served as first point of contact for 40+ residents, triaging and resolving day-to-day issues and escalating higher-priority incidents to staff, consistent with SLA-style response expectations
- Enforced community policies and mediated resident conflicts, applying calm, structured de-escalation techniques under pressure
- Maintained accurate incident logs and documentation for policy violations and resident concerns, ensuring clear handoff and follow-up
- Coordinated with residential life staff and campus security to respond to emergencies and after-hours incidents, maintaining availability on a rotating on-call schedule
- Recognized for reliability and consistent, professional service to residents and staff

NETWORKING EXPERIENCE

- Completed hands-on labs and simulations covering network topologies, IPv4/IPv6 addressing, routing and switching concepts, VLAN configuration, wireless networking, network security, and disaster recovery
- Used Wireshark and Nmap/Zenmap for packet capture, protocol analysis, and network scanning
- Configured SOHO routers, ACLs, and RADIUS in Packet Tracer; deployed and tested virtual network environments in VirtualBox
- Contributed to a collaborative group project delivering a firewall proposal for a simulated client, including a research paper, network diagram, and recorded presentation

RELEVANT SOFTWARE ENGINEERING PROJECT

Assessment Report Generator · C#, ASP.NET Core, SQLite, Agile Scrum

Senior Capstone Project, Client: Dr. Blythe

- Led a team as Scrum Lead to build a full-stack application automating academic reporting, facilitating sprint planning, standups, and retrospectives
- Designed and normalized a relational database (10+ tables, 3NF) to manage students, courses, and learning outcomes
- Built a concurrent airport simulator
